

VA MISSION Act

An Overview of Key Elements

What is the MISSION Act?

The VA Maintaining Internal Systems and Strengthening Integrated Outside Networks (MISSION) Act of 2018 was signed into law by the president on June 6, 2018. The Act will fundamentally transform VA's health care system, fulfill the president's commitment to provide Veterans with more choice in their health care providers and prevent a funding shortfall in the current Veterans Choice Program. The Act includes four main pillars:

1. Consolidating VA's community care programs.
2. Expanding the Program of Comprehensive Assistance for Family Caregivers to eligible Veterans of all eras.
3. Providing VA the necessary flexibility to align its infrastructure footprint with the needs of our nation's Veterans.
4. Strengthening VA's ability to recruit and retain quality health care professionals.

What is it NOT?

The MISSION Act is not a step toward privatization. It's about significantly improving Veterans' experience and enhancing their access to care.

Key Elements

Community Care - The Act consolidates VA's multiple community care programs, including the Veterans Choice Program, into a new Veterans community care program, which is easier to navigate, for Veterans and their families, community providers and VA employees.

Caregivers Program - The Act expands eligibility for VA's Program of Comprehensive Assistance for Family Caregivers (PCAFC) by including eligible Veterans from all eras of service. Post-9/11 Veterans have benefited greatly from PCAFC. Expansion will occur in two phases, starting with those who were injured on or before May 7, 1975, with further expansion beginning two years later. The expansion timeline is still under development.

Asset and Infrastructure - The Asset and Infrastructure Review (AIR) process in the Act will provide VA the necessary flexibility to align its infrastructure footprint with the needs of the nation's Veterans.

Recruit and Retain - VA is focused on recruitment to ensure Veterans are receiving the care they have earned. This Act will allow for additional, improved recruitment efforts, including a new scholarship program, greater access to VA's education debt-reduction program and improved flexibility for providing bonuses for recruitment, relocation and retention.

Information Sharing - For the purpose of providing health care or other health care related functions, the Act allows VA to share patient information that would otherwise be protected. It also allows for disclosing this information for purposes of recovering or collecting reasonable charges for care furnished to, or paid on behalf of, a Veteran in connection with a nonservice-connected disability.
